Git, GitHub, Cloudinary
npm, Postman, VS Code

Soft Skills

Problem Solving, Debugging
Project Management
Client Communication
Team Collaboration

LANGUAGES

Urdu

Native / Fluent

English

Intermediate
(Professional Working)

PROFILE SUMMARY

Motivated and results-driven MERN Stack Developer currently pursuing a Bachelor of Science in Software Engineering at the University of Sargodha (Expected 2030). With hands-on industry experience at Switch2itech, I have successfully delivered full-stack web applications for medical institutions, professional societies, and enterprise business management systems. I combine strong technical skills with project management ability to deliver scalable, high-performance solutions. Passionate about clean code, modern web architectures, and continuous self-improvement.

CAREER OBJECTIVE

To leverage my expertise in the MERN Stack and modern JavaScript technologies to build impactful, production-ready web applications while growing as a full-stack engineer. I aim to contribute to innovative teams, take on challenging projects that solve real-world problems, and advance toward senior development and technical leadership roles as I complete my academic journey.

WORK EXPERIENCE

Switch2itech

MERN Stack Developer & Project Manager August 2025 – February 2026

- Developed and maintained full-stack web applications using the MERN stack (MongoDB, Express.js, React.js, Node.js).
- Led project management responsibilities, coordinating timelines, deliverables, and client communications across multiple projects.
- Built and deployed the Switch2itech ERP System — a web-based project and business management platform using Next.js and third-party API integrations.
- Integrated third-party APIs and services to extend application functionality and improve user workflows.
- Collaborated with cross-functional teams to translate business requirements into technical solutions.
- Implemented RESTful APIs and managed database schemas for production-level applications.

PROJECTS

SSPL — Society of Surgeons of Pakistan, Lahore

Tech: MongoDB, Express.js, React.js, Node.js, Cloudinary, Third-Party APIs

- Designed and developed a professional society website to showcase events, research publications, and honorable member profiles.
- Integrated Cloudinary for media management and multiple third-party APIs for enhanced functionality.
- Delivered a fully responsive, production-ready web application tailored to a prestigious medical society.

SIHS / Sargodha Medical College — Institutional Web Platform

Tech: MongoDB, Express.js, React.js, Node.js, Cloudinary, Third-Party APIs

- Built an institutional web platform to manage and showcase the college's online presence, events, and image gallery.
- Implemented Cloudinary-based media pipeline for efficient image and file management.
- Delivered a scalable MERN stack solution meeting institutional requirements.

Switch2itech ERP System — Enterprise Resource Planning Platform

Tech: Next.js, REST APIs, Third-Party Integrations

- Developed a comprehensive web-based ERP system for project and business management at Switch2itech.
- Built with Next.js for server-side rendering and optimized performance across modules.
- Integrated third-party APIs for enhanced business process automation and reporting features.
